Bullying

In this report I would like to talk about "Bullying". "Bullying" someone means that you're intimidating somebody and making him or her unhappy. A lot of children from different schools are passing through that sort of situation, being chased or being bitten up, feeling themselves very badly; that could even happen in this school and we don't even notice it. I would also like to suggest to the children that are bullied or to their friends that they should ask for help to an adult, because these situations could get even worse. In some cases, being bullied during years can cause so much pain that some children even try to kill themselves.

A research made in some schools of Spain says that about 2% of the Spanish children suffer from this unfair situation of being bullied and it also claims that about 16% of the children and youngsters had participated of annoying and bullying others.

In Hondarribia (2004) there was a case of 14 year-old-boy that killed himself. His name was Jokin Zeberio and he was suffering from bullying every day and he couldn't stand it any longer. His last words were "Free, free. My eyes will be, even if they stop my feet".

In conclusion, if we are being bullied or if we know a case like this we should tell an adult about it so that he or she could help them because it could have horrible consequences.

TEENAGERS WITH PROBLEMS IN THE SCHOOL

In the school there are a lot of things that disrupt teenagers. For example, problems at home with their parents or with partners.

Some teenagers have to bear bullying.

Bullying is every act that can intimidate a person in the school. It can be just psychological or even physical. The attackers make the victim do something he or she doesn't want to do and in the end the victims have always a sad and impossible life.

Teenagers have a very bad time because they have no friends and no auto esteem.

They are always afraid of school and partners and even they don't want to go out from their houses.

There is a strong link between bullying and suicide. Bullying provokes suicides every year. People between 15 and 25 years old commit suicide every year because they are bullied.

Research indicates that adults and children who bully have personalities that are authoritarian; they have a strong need to control or dominate other people.

Bullying can also be done by teachers and the school system. For example, sometimes teachers humiliate abuse or exclude students making them feeling badly and unhappy.

STORIES OF BULLYING

Janet Brown:

This girl is 15 years old and she lives in Chicago, USA.

She was not a very popular and beautiful girl.

She had to support bullying by her classmates. One day, she tried to kill herself because she had the auto esteem really low. She went to a psychologist because her parents were very worried. She went to another school and she did new friends. Now, she is happy.

Taylor Smith:

This boy was 14 years old and he lived in Dublin, Ireland.

He wasn't very good-looking, he was ugly. He was a very good student and he liked reading and studying. He didn't like playing sports like other people from his class.

He was fat and his classmates laughed at him because of his appearance. He went to another school, but he wasn't happier. He was very sad, nobody respected him and he committed suicide throwing to the space.

Alice Doyle:

This girl is 13 years old and she lives in Munich, Germany.

She was addicted to computers. She was always playing games and chatting with people in the web. She didn't go outside and she didn't have friends at her school. Her classmates laughed at her because they thought that she didn't have a social life. Her

parents removed her from the computer and she was very sad, but she had an idea, she called her chat friends and she stayed with them. Now, she has a lot of friends and her classmates don't laugh at her.

John Kenny:

This boy is 16 years old and he is from Ottawa, Canada. He was addicted to drink alcohol and his schoolmates laughed at him because he went every day drunk to the school. He was very solitary. He went to a psychologist, but he didn't change his attitude. Nobody could make him happy. Finally, when he was 17, his parents hid him the alcohol and they looked for new friends for John. Now, he is happy.

Handicapped people

Vitoria-Gasteiz is one of the best cities of Spain dealing with the facilities for handicapped people, but it could be better.

One of the latest changes made are the bins, but now they're useless because the rubbish men put it half a metre from the sidewalk and it's difficult for the handicapped people to reach there.

Another important change consists of placing a ramp of the sidewalks; but unfortunately you can only find them in one of the sides of the road which makes it dangerous for them.

In some streets, depending of the person's disability, some of them can't pass through some ramps; and so they can't reach their houses; and that's why the city council is thinking of putting lifts for them.

Some pubs haven't adapted their facilities to this situation. If they want to do some working they have also to consider the situation of disable people, installing in the bathrooms, the ramps, and an easier place for them to reach to the tables.

All the houses must have facilities for the handicapped people.

SOCIAL NETWORKS

A social network is a social set of people, organizations, communities, nations...

A social network is a web page that shows the people photos and information about themselves, their feelings or what they are doing at that time. People who visit the space have the chance to comment what their opinion is about themselves.

These are some pages with this purpose:

-TUENTI

-TWITTER

-FACEBOOK

-MESSENGER

-MYSPACE (THE MUSIC THAT PEOPLE WANT)

Here are some logos from that page:

In tuenti you can only communicate with Spanish people

Facebook is an International page. You can communicate with people all over the world.

With the Messenger (msn) you can communicate with any person in the World because the Messenger is International.

Myspace is a special page because singers, DJs and bands put their music on the page and they can add photos, news, information about their music and so on.

There is a difference between tuenti and twitter. Tuenti is for the young people and twitter is like the tuenti for the adults.

Now I will say the creators of these international pages:

The creators of all this pages are young people.

They know what young people want so they think and create these pages.

Tuenti: Zaryn Dentzel

Twitter: Evan Williams

Face book: Mark Zuckerberg

Messenger: Dizzy Nick

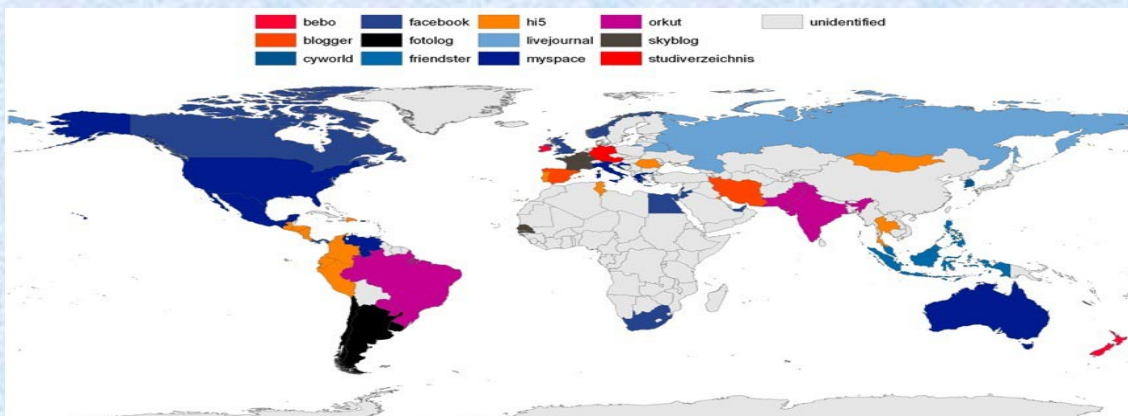

MySpace: Tom

Nowadays these pages are known in the entire world because with these pages you can communicate with anybody anywhere.

THESE PAGES ARE GREAT!!!!!!!!!!!!!!

You can create any accounts on the page you want, you do not have to pay anything for registration and then you log in every time you want to visit your account.

In some pages you need to have a concrete age to sign up. For example for tuenti you have to be older than 13. Most popular social network in each country

PARIS

Paris is one of the biggest cities of the world and the most visited one.

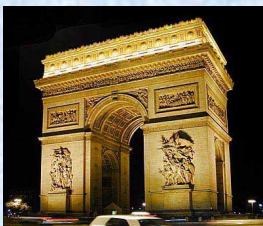

This is not only because its history, but also because it is very beautiful and it has many touristic places.

One of these places is the Eiffel Tower. Perhaps this is the most recognized monument in Paris. It was designed by Gustave Eiffel, who did this work for a model competition. It is the most visited monument and at night it takes different colours and it is very beautiful.

The second one is the Arc de Triomphe. This big monument is located at the end of the Champs Elysees.

Sometimes they celebrate a remembrance ceremony for the soldiers who died in the war.

Another one is the Sainte-Chapelle. It has two floors. The first one is for servants and commoners. The second one is for rich people. It is more elegant than the first floor and the windows are splendid and full of colour.

You can also visit the most important museum in the world: The Louvre. This museum has many famous sculptures and drawings, like the "Monalisa" or "The Venus of Milo". It also contains a small representation of the residences of Napoleon. These are only some of the art objects that you can see there.

Trips

These are just a few of the spectacular monuments that you can see.

And, of course, in a big city we can find many beautiful shops. One of the most amazing avenues is Les Champs Elysees, where you can find many of the most important shops with well-known designers. If you want to have a look at the most luxurious shop you must go to the Place Vendome. There you can also find the Ritz Hotel, the Maxims Restaurant and important jewelleryes.

A typical place to visit is Montmartre, where lots of painters make portraits of the visitors in a few minutes or beautiful paintings of whatever they see.

Another good idea is going for a walk around the Sena River, especially at night. At this moment, many young people meet there to have a drink or a picnic. You will find a very nice atmosphere because they spend a good time there.

Paris is full of big monuments as Notre Dame, les Invalides, Le Louvre, Le Conciergerie, Le Sacre- Coeur, L'Opera, but there you can also find very modern buildings as Le Centre Pompidou, and Le Parc de la Villette.

If you go to Paris you need to take some time to enjoy the small coffee- shops or the good restaurants.

After this short recommendation we wish you...

bon voyage!!!

Greece

Greece is a country in southeastern Europe, situated in the southern end of the Balkan Peninsula. The country has land borders with Albania, the Republic of Macedonia and Bulgaria to the north, and Turkey to the east. The Aegean Sea lies to the east of mainland Greece, the Ionian Sea to the west, and the Mediterranean Sea to the south.

Greece has been a member of the European Union and its Economic and Monetary Union since 2001 and the European Space Agency since 2005. It is also a founding member of the United Nations, the OECD, and the Black Sea Economic Cooperation Organization.

An important percentage of Greece's income comes from tourism. In 2004 Greece welcomed 16.5 million tourists. 6 088 287 tourists visited only the city of Athens, the capital city.

Now, this country is having a bad economic situation, because of the global crisis. Some European people say that Greece has to be out of the European Union, but some countries like Germany, Spain, France, Italy, Portugal and Holland are giving some helps to Greece, lot of money.

VENECIA

*Venice is a beautiful city to visit. It is located in the north of Italy, it is the capital of the Veneto region, the population of Venice is about **271,367 people**. The city has got 117 small islands that are separated by 150 different canals. The buildings from Venecia are very high and old, so they are so attractive for tourism.*

This city is very popular because it is full of water. People of Venecia use gondolas or motorboats to move across the city .

There are problems of transit and sewage.

This city smells very badly because lot of people throw a lot of rubbish into the water.

I recommend this city to all the tourists who like to travel and visit strange cities. You can find more information in www.wikipedia.com/venecia

BASKONIA BASKET TEAM

"Saski.Baskonia" (S.A.D.) is nowadays one of the most important clubs in Spain and its name provokes respect in Europe. There is no more conclusive proof of it that its double of the season 2001/02 in which the team won the Cup of the King and the ACB League, or his presence of consecutive form in three Final Four. But to reach these successes the Club has had to give many steps, sometimes small but others huge, from his foundation in 1959.

THE NAME

In that year, when the team appeared for the first time, it was called "Club Deportivo Vasconia". Little by little, they started bearing.

Afterwards, in 1976, they changed the letter V into B. So, their name was "Basconia-Schweppes".

The team has had different names like "Arabatxo Baskonia" "Taugres" and "Tau Ceramica Baskonia", this last one for many years.

Now the official name is "Caja Laboral Baskonia".

THE TROPHIES

In ACB League:

They won the season 2001-2002 versus Unicaja and the season 2007-2008 versus Barcelona team.

In King's Cup:

They achieved it in the seasons:

- 1994-1995 vs. Zaragoza*
- 1998-1999 vs. San Fernando*
- 2001-2002 vs. Barcelona*
- 2003-2004 vs. Joventut*
- 2005-2006 vs. Valencia*
- 2008-2009 vs. Unicaja*

In Supercup:

They managed four of it:

- 2005-2006 vs. Granada*
- 2006-2007 vs. Unicaja*
- 2007-2008 vs. Turbentia*
- 2008-2009 vs. Zaragoza*

All these trophies mean that it is the best team in the world!

Why I support Baskonia

I have supported Baskonia since I was a little girl. My mother invited me to go and I answered nothing because that was new for me, so my mum said that I would like it. I remembered that my first time I saw Baskonia, they were playing versus Barcelona Club and my team won.

I have been to Fernando Buesa Arena Stadium for many times, but I am not a member because my parents said that I have too many out of school activities. I hope that the next year I will be a member of my team.

My favourite players have always been Tiago Splitter and Mirza Teletovic. and Luis Scola. He has left here very good prizes, but he was such a good player, that an NBA team signed him.

This year I have been to my first King's Cup to Bilbao. We have lost it, but the fans were proud of our team. In spite of the defeat the fans stayed there for more than half an hour cheering the team. Afterwards Baskonia's players went out of the changing room to thank us. It was fantastic; I would like to repeat this experience!

The situation of this year has been difficult, but the team did not stop wrestling at any moment. This year we can only won the ACB league or if we are lucky the Euroleague.

My best wishes for my team BASKONIA!

Leo Messi

He was born in Rosario, Argentina, in 1987. Her aunt gave him a ball in his 3rd birthday, and since that day, he did not stop playing football. At the age of five, he entered in his neighbourhood, Grandoli, where his father was his coach.

Two years later, he started to play in Newell's Old Boys's inferior divisions. His trainer said that the things that he made with the ball were only comparable with Diego Armando Maradona.

At the age of eleven the River Plate turned him down, because he had a health problem that stopped him growing. So he travelled to Barcelona, where some relatives were living. He made the trials to sign F.C. Barcelona and he was accepted. The team paid his medicines to grow up, and he started playing in La Masia.

Messi made his official debut for the first team in a friendly match against Porto on 16th November 2003; less than a year later, Frank Rijkaard let him make his league debut against Espanyol team on 16 October 2004 becoming the third-youngest player ever playing for Barcelona and the youngest club player who played in the Spanish Professional Football League (a record broken by his team mate Bojan Krkic in September 2007). When he scored his first senior goal for the club against Albacete on 1 May 2005, Messi was seventeen years, 10 months and 7 days old, becoming the youngest ever scoring in the Spanish Professional Football League for Barcelona until 2007 when Bojan Krkic broke this record, scoring the goal with his assistance. Messi said about his ex-coach Rijkaard: "I will never forget that Rijkaard has launched me and gave me confidence when I was only seventeen years old."

Our last year

This is our last year at school.

One day of September, 1997 we came to Niño Jesús for the first time, and then we did not know that our stay would be so long and so important.

Our first teacher was Rosa. In our class, we were 25 children, but with the years some people have been leaving and now we are 20 partners.

Since we were children, we have done many excursions.

The farm school was our first trip and we learned to be without our parents and also to look after animals.

In Alkiza, we stayed for five days and we improved our basque doing funny activities.

We have also done the final course trip, and we visited the Aquarium of Donosti and the Guggenheim museum of Bilbao.

The students of French have done two interchanges with France. It was a great experience to make friends and improve our French.

We did our study trip in Salou and Barcelona. We were there for three days and visited La Sagrada Familia, the Guell park, Port Aventura and Zaragoza.

In those excursions, we have enjoyed ourselves a lot.

In our school in May 21 and 22 we celebrate Santa Joaquina because is the patron of our school. In those days we do some different activities, the most important one is when we go to San Mateo church where we have a religious service and 4º ESO students say goodbye. We are not going to forget all these things.

In the sports center we do some sports activities, and in the auditorium we do a karaoke.

In the classes we do some games, people carry some games from their houses.

In June we do the farewell party and the teachers give us the border with the photos of all of our classmates and teachers.

This year has been perfect but now we are feeling sad because we have to leave the school where we have learn so many things, made good friends... and now we are going to separate. We hope we will see all our friends again. We say good bye to you and we hope you have good luck.

We are going to talk about the great summer camp in Dublin organized by our school Niño Jesus. Here we have an student that can explain us that camp in Ireland, his name is Julen. We are going to interview him:

Reporter (Maialen): How long was the camp in Ireland? Julen: It was about 2 weeks

Reporter (Maialen): Do you want to go to Ireland again?

Julen: Yes I do, I learned a lot of English and I made a lot of friends

Reporter (Maialen): Did you speak a lot of English?

Julen: Yes I did

Reporter (Maialen): What do you think about Irish food?

Julen: it was similar to our food but they love vinegar and they put vinegar in all of their food

Reporter (Maialen): what activities did you do there?

Julen: for example:

1- We went to the lighthouse where James Joyce wrote Ulysses

2 Once a week we went bowling

3 Once a week we went shopping

4 The last week we did an exhibition about our culture

The camp was great, I recommend you this camp because you can study the Irish pronunciation and you can also have a great time.

Now we are going to check your English: Find words from our article

"THE BLOODY COUNTESS"

There are many legends about vampires. However there are real documents that prove the existence of a true vampire of the seventeenth century: Elizabeth Bathory.

She was born in 1560 in one of the wealthiest families in Transylvania. When she was 15 she married the count Ferencz Nasdasdy, who was always out, so her servant, Thorko, introduced her to the occultism. In 1600 Ferencz died. One day while a girl was combing Elizabeth, she hurt her, so Elizabeth squeezed the girl's hand so hardly that it began to bleed. Her blood fell into Elizabeth's hand. The moment she felt on her skin a freshness that never really felt so she thought she had discovered the secret of eternal youthful skin. Thorko filled a bath with the girl's blood and Elizabeth had a bath in it for getting all her body beauty. She continued killing girls for her rituals until one of them escaped.

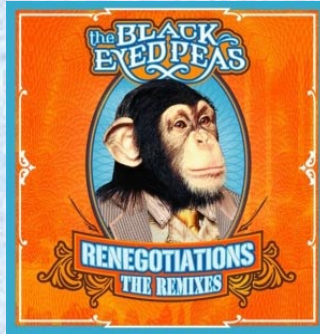

In December 30, 1610, the authorities sought the castle and found the bodies of at least 650 women. She was locked at her house. She died in 1614. There are many connections between the Bathory and the Dracula.

Marquis de Sade

Marquis de Sade (1740-1814), was a French writer. The erotic writings by him gave rise to the term

sadism – enjoyment of cruelty. His works have been seen as exploration of sexual and political freedom. On the other hand he was a multiple rapist, torturer and murderer. He married a girl called Renée, whom he had known two days before. A few days after his marriage, he contracted the services of a prostitute called Jeanne Testard. Some years later he took the services of another prostitute called Rose Keller. He did things like whipping her naked body. After being sentenced to death by poisoning in 1772 fled to Italy. In 1777, after many orgies with prostitutes he was imprisoned in Vincennes. In prison he wrote many erotic stories. Later he was transferred to the psychiatric de Charenton, where he died in 1814.

WE LOVE MUSIC!

The music nowadays is very present in our society, because everybody listens to it. It has always existed, for example in Mesopotamia or Egypt they used their music to be in touch with their Gods and Greeks were used to doing the same. The meaning of the music has changed a lot because as I have said before, many years ago the music was joined to the religion and now we can say that there is a different kind of music for each social group. Today there are thirteen music currents: Electronics, punk, rap, hip-hop, jazz, heavy, rock, reggae, alternative, ska, pop, contemporaneous, jazz-fusion, contemporaneous, band sonorous. Now I'm going to tell something about three of them:

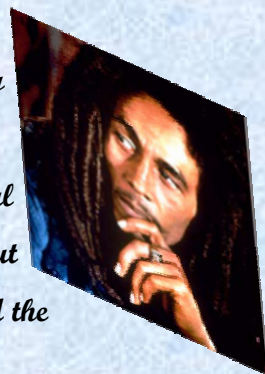

REGGAE

It's a music genre which was developed in Jamaica in 1960s. It is used to refer to most types of Jamaican music and it has three subgenres: Skinhead Reggae, roots reggae and dancehall.

The people who listen or who perform this kind of music are Rasta men. The word reggae comes from ragamuffin; "harapiento". This kind of music was associated to the poor neighborhoods of Jamaica, but now everybody around the world is familiar to it.

The topics of this music are those which are related with social critics, politics or religion. People identify Reggae to Rastafarians but this is not true because Rastafarians take part in the church services and the others don't.

Bob Marley is the most important Reggae singer. He was born in the north of Jamaica in 1945. When he started singing most people laughed at him because of the color of his skin, but he never listened to them. He took part in some different groups, until he decided to start his solo career alone. At the age of 70 he had already become a very famous singer at recorded when he recorded his most important album; "Exodus".

Music

Heavy

It's another music genre, a mixture between rock, blues and classic music. It's very common to see a man playing a guitar and another one with the drums. This music is played very loudly and also very heavily. All the people who play, sing, or are just fans of this movement, are dressed in a peculiar way. They usually wear black clothes. Their T-Shirts are also black with a picture of their favourite group; their trousers are very tight and made of leather. They do not wear trainers; they are used to wearing boots with a long tip and also with some chains. Men have very long hair to move it like the singers do in their concerts. Another typical thing is to wear chains everywhere hanging from their clothes, to wear lots of bracelets and the body pierced. The tattoos are very important for them and most of them have at least one.

HIP-HOP

The hip-hop music arose in the late 1960s when the street parties or "block parties" became common in the New York City, especially in the Bronx, because people who lived there couldn't go to clubs that "rich" people were used to go, like some areas from the Big Apple, including The Loft and Studio 54.

The street parties were accompanied by funk and soul, until the first DJs began isolating the percussion and extended, as the song became more dancing. This technique was common in Jamaica (in the dub), which led to the Jamaican immigrant community participate in these celebrations. This adaptation of beats later, it was accompanied by another new technique called rapping (singing technique based on rhythm and improvisation).

DJ Kool Herc was considered to be the father of hip hop, because with him two of the elements of hip hop were born and developed. He created the "Master of Ceremonies" (abbreviated MC maestro de ceremonias), whose work was presenting the DJ. Slowly, the MC was becoming more important. The MC started reciting the beats (the hip-hop beats) with very ingenious texts. At the same time, they started dancing them, reserving the best dance for the moment when the singer stops singing, that is to say, they danced when nobody was singing, when there was a break. In

this way appeared the term B-boy (break-boy), that means "the guy who uses the break" and break-dance movement was born. The hip hop is formed by four important things; MCing (rapping), el DJing (turntablism), breakdancing (bboying) and the graffiti. But apart from these, there are some others like popping, locking or beat box which are less important.

- The union of two elements, the MC (Master of ceremony) and DJ (Disc Jockey), make musical style of hip hop: rap.
- The graffiti's existed before this culture appeared but those were a symbol against the politic, and weren't a part of this culture. They started doing graffities in the 70s in New York; they were made by the "writers" and normally were represented with large coloured letters with pseudonyms. Graffities allowed decorating the walls with the name of groups, break dancers, and DJ's or MC's.

- The dance bboying is known as break-dancing. A person, who practices this dance, is called bboy or Bgirl. But there is a difference between a bboy and a breaker. The first dances because of cultural issues and because he wants to show us new elements, to raise the level of the dance. The breaker or break-dancer is that one who dances only

by profit-making or for fashion issues; this one doesn't know anything about the culture.

The hip-hop is a way to express their feelings, opinions about the politics, religion... but it has always been criticized because many times their lyrics are about violence, drugs, illegal things and some people considered them offensive. One of the most famous singers of this music around the world is Eminem, and in Spain we can find: "Violadores Del Verso", "Falsalarma", "El Chojin"...

This is my favourite group of music, because I think that their lyrics are quite good although some of them are a bit rude. They speak about all the topics you can imagine. The group members are Hate (also called Sho Hai) (Sergio Rodríguez, MC), Kase-O (Javat, whose real name is Javier Ibarra), Lírico (David Gilaberte, MC) and R de Rumba (Rubén Cuevas, the DJ and the producer).they have some CD like "Violadores del verso". "Vicios y virtudes" or "Vivir para contarlo"

Nobody is perfect!!!

We think that famous people are perfect but that is false. Everyone is different but we aren't perfect. Everyone has their own mistakes. Most of the girls are worried about their appearance. They want to be like the famous stars. But look at this photographs....do you think that they are perfect?. Some girls want to be like some superstars, but these photos show us how they really are. Most of them have been operated for example: Belen Esteban or Ana Obregon.

This is Britney Spears, she has a lot of problems in her life . She saved her hair and she lost the custody of her daughter and son. Now she has a new CD.

This is Miley Cyrus without make-up : She is the richest teen in the U.S.A. Normally we see her with lot of make-up, but she has also spots like all the teens. Now she appears on an internet video dancing with a producer that is 30 years older than her. She Also made a video (can't be tamed) to demonstrate that she isn't a little girl and she wants to be an adult.

This is Amy Winehouse. Now she is quite changed because she gave up drugs; she has less problems in her personal life and now she is a nice person.

Lady gaga is a famous singer .She wears strange clothes in her concerts and music videos. Her real name is Stefani Joanne Angelina Germanotta. She sings pop, dance and electronica.

Belen Esteban changed a lot when she was operated. She has a daughter called Andrea , and Belen has just won the TV program "Más que baile" but she dances very badly.

New Moon

After Twilight comes New Moon the second part of the saga. After the success of Twilight they decided to record other three films. The first film was directed by Catherine Hardwicke, and the second one by Chris Weitz. Both movies are based on books by Stephenie Meyer.

In New Moon Bella is eighteen and she begins to be afraid of aging. Edward also leaves the city and breaks up with Bella. She spends her time with Jacob while he falls in love with her and in the meantime, he turns into a werewolf.

Kristen Stewart plays the naïve Bella who is in love with Edward. After he leaves her she becomes addicted to adrenaline doing dangerous actions as she remembers Edward.

Robert Pattinson plays the vampire Edward who leaves the city. Taylor Lautner plays Jacob a member of a Native American group. He spends his time helping Bella while he falls in love with her. He also discovers that he is turning into a werewolf, a natural enemy of vampires and he goes with the "Walk pack" looking for the vamp who wants to kill Bella, Victoria.

I would say that this film is romantic because the love triangle between Bella, Edward and Jacob is the main theme. In my opinion, the film is good but I do not like the end because they make a question and they do not give the answer so you have to wait for another movie. The soundtrack is brilliant especially if you like slow music.

I strongly recommend you to see this film. If you want to contribute, you can send your review to our magazine next number.

LOVE QUIZ 'S ANSWERS

Most of the answers "A"

Well done, you are a perfect girlfriend. He is your "better half".

You both understand really well. When there are problems you try to share and discuss them together. You give presents and you hope to receive them, but if not, you don't care about it, you rely on him. Continue like that!

Most of the answers "B"

You are quite well together, but you have to improve some details. You should trust your partner and comment the problems you have, because he can help you with them.

When he does something wrong you should ask him the reasons of it and not to misjudge him until he tells you anything.

Most of the answers "C"

You could do it really better. You do not trust each other, and that is a serious problem because in a couple the most important thing is the confidence. You do not show your feelings very well because you sometimes are cold. You get really angry when he does something or he forgets an important date for you. You should listen to him and you will see that he will tell you more things and that soon, you will get better together. Try it!
